

BookBox (Läslådan)

BookBox raises BookJoy from the table by 15 or 21 cms. It is easily folded up by pushing in the sides. It is opened up by unfolding the sides until the Velcro strips meet. Readers who have trouble with a stiff or aching neck have a more agreeable reading position with the BookBox accessory. People with defective vision and a short reading distance can also have more comfortable reading.

An angled shelf (*accessory*) gives the book broader support. The shelf is pushed down behind the supporting rod to provide a 2 cm. or 3 cm. wide support.
