

BookJoy (bookholder)

BookJoy allows you to read in comfort.

With BookJoy you can place your book on the table or on your lap. You have a comfortable reading position and more easily avoid glare from ceiling lights. If you have an aching neck, stiff fingers or are one-handed, BookJoy offers you more agreeable reading time. BookJoy is a briefcase file that folds out to a triangle. It is self-locking with the help of a Velcro strip. Elastic bands and a supporting rod hold the book in place and you can easily turn the page. Size 39 x 25 x 2 cms. Weight 490 grams. An angled shelf that can easily be fitted to the supporting rod is available as an accessory.

The triangular shape allows various reading angles.

Read and look together –

it may be children's books, homework or crosswords.

Read with your hands free –

to make notes and underline in course literature, memoranda or reports. To do crosswords. To read recipes, drawings, patterns when you are creating and as a note stand when you are playing.

BookBox raises BookJoy from the table by 15 or 21 cms. It is easily folded up by pushing in the sides. Readers who have trouble with a stiff or aching neck have a more agreeable reading position. People with defective vision and a short reading distance can also have more comfortable reading. An angled shelf (*accessory*) gives the book broader support. The shelf is pushed down behind the supporting rod.
