Vallonskolan in Gimo
Phone: +46 17386700

When it comes to old work qualifications, it's not safe that people recognize myself and so on, but I have collected myself work certificates and work grades from different employers and I have in many cases also left old working materials from earlier workplaces, as for instance project works and things like that as oneself placed down your time on once upon a time, when it comes to producing and building up a product.

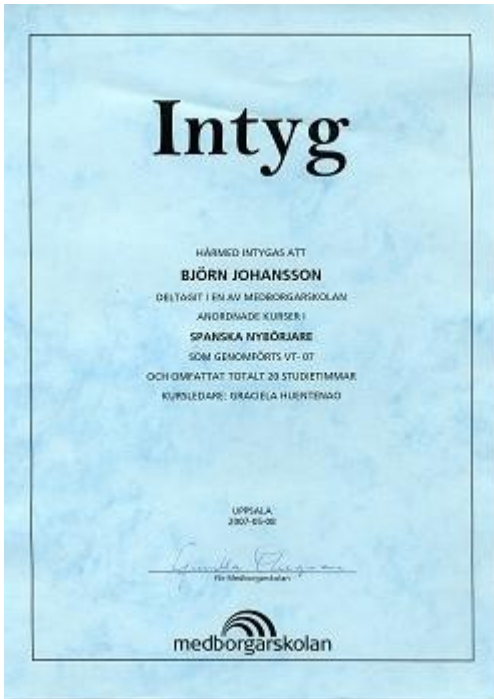

From **4A Consulting** I have project material regarding **Östhammars sportclub** (<http://www.osthammarssk.com>). And from **Sandvik Coromant** I have a brass plate which I made during my short workperiod.

Spoken languages

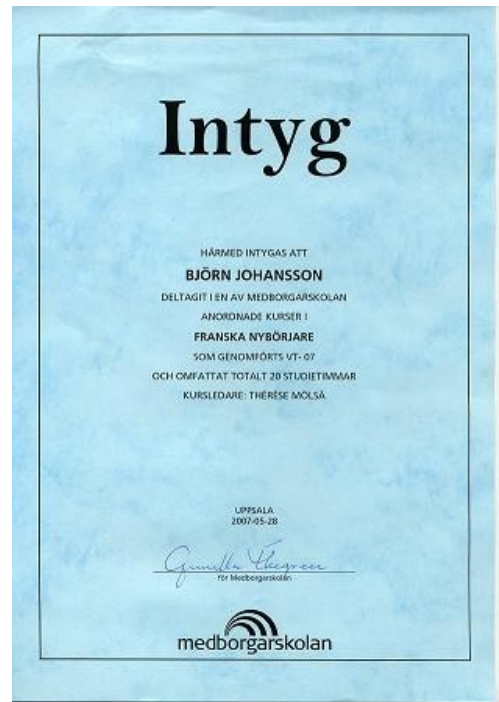

Present language skills: swedish(course A, the custom Upper secondary school level and english(course B, the custom upper secondary school level).

(Courses in development: spanish and french)
