updated dam's produce record

2008 (4yo): has not yet started this year

Training Notes: (blinkers)

He prefers to stalk the pacesetter, but can set the pace if necessary. Classic distance runner capable of going from 1M to 1½ M. Slop does not bother him, but we do add toe grips for wet tracks. Had a fantastic race in the Breeder's Cup - looking to add a few more stakes wins to his record before he retires to stud at the end of 2008.

Instructions to the Jockey: Get out clean & safe, then settle to stalk the pacesetter and bide your time until the last quarter. Then move up to challenge the front-runners. A light tap with the whip should be enough to get him started for a good stretch battle.

This is a sample race card that I keep for my horses. The top line contains his CLIFF NOTES SUMMARY, which stewards copy and put into their race card file when this horse is sent to a meet. The next line has his name, followed by his birth year, color, and registration number. Next are his sire's pedigree notes, followed by his dam's pedigree notes. All his races and placings are listed after the pedigree notes. The last thing listed are the trainer's notes and jockey instructions. I prefer to use Arial Narrow 9 pt font on my cards because it is small but still readable.
